The board is to periodically cause an independent survey to be conducted among students and faculty of the college evaluating the quality of administration, quality of course instruction, the effectiveness of faculty, and such other matters as the board may deem appropriate. Such an independent survey is to be done every three years, or as required by the accreditation standards set by the Western Association of Schools and Colleges. The board is to transmit a copy of the results of the survey to the FSM President and the Congress of the Federated States of Micronesia and to the governors of the states of the Federated States of Micronesia within 60 calendar days of the completion of the survey.

The periodic reports from the evaluation teams that are sent by the Accrediting Commission for Community and Junior Colleges Commission can be used as substitute for the required independent survey; a practice accepted by the national leadership.
