

AGENDA ITEM11.g

Board Policy 4913: Special Admissions to Associate Programs

RECOMMENDED DIRECTIVE: The board hereby approves BP 4913 to be effective with students beginning an approved program spring 2018.

Discussion: The Curriculum Committee approved a program modification for the Agriculture and Food Technology program on March 13, 2017. The program modification included adding English and math to help students build foundational skills. A second modification provided a pathway from the certificate to the Agriculture and Natural Resources degree program if a student completes the certificate with satisfactory or above grades.

In order for this program modification to become applicable, there needed to be a policy change for admissions. The proposed Board Policy 4913 was reviewed and endorsed by the Recruitment and Retention Committee on October 4, 2017.

Executive Committee reviewed and endorsed this policy on November 7, 2017.
