

AGENDA ITEM 11.j

Board Policy No. 8000: Technology Fee

RECOMMENDED DIRECTIVE: The board hereby approves the proposed revision to Board Policy No. 8000 Technology Fee

DISCUSSION: The rationale in the change is that technology has changed teaching and learning where most learning should now be occurring outside of the classroom (flipped classroom) through the use of technology, and faculty are becoming facilitators of that learning via the classroom. The classroom is and should be used for experiences and activities based on that learning (which also relies on technology). The nature of teaching and learning have changed and thus the policy need to evolve to allow for and reflect application to deliver on current best practices.

[November 9, 2017](#), the ICT committee reviewed and approved the policy changes. Then, EC reviewed and approved the policy changes on December 5, 2017.

ACTION TAKEN:

- Approved as presented
- Approved w/ modifications
- Disapproved
- Deferred to a later meeting

VOTE:

aye nay abstain
