Key Budget Terms

Auxiliary Services	These are other services offered by the College which are self-supporting, such as cafeteria and bookstore.
Base Costs	Also referred to as core costs or fixed costs , (starting with FY2014 budget) these costs were determined and included in the budget in advance to insure that they were fully budgeted. They include personnel costs (from Human Resources Office); utility costs and maintenance costs (from Maintenance Office), and communication costs, from Information Technology Office.
Budget	A financial plan for the future based on a single level of activity; the quantitative expression of a company's commitment to planned activities and resource acquisition and use.
Budget Preparation System (BPS)	A computer program used by the FSM government in its budget preparation. The FSM Budget Office requires COM-FSM to use this software, and has provided the college with a BPS template (ready for data entry) based on the college's budget structure.
Budget Structure	COM-FSM's organizational structure as basis for budget data entry. Any change in this structure necessitates adjustment in the BPS template. For example, the FY 2013 budget was based on functions (budget for Business Office for all campuses) but the FY 2014 reverted back to the unified campus budget. As a result, change was necessary in the BPS template for FY2014.
Budgeting	The process of formalizing plans and translating qualitative narratives into a documented, quantitative format.
Compact Funds	Funding assistance from the U.S. Federal Government as part of the agreement under the Compact of Free Association entered into by and between the Federated States.
Core Costs	See Base Costs .
Dean	Official title or designation of heads of COM-FSM state campuses and National Campus office of academic programs.
Director	Official title or designation of heads of various offices at COM-FSM, such as HRO, FAO, OARR, IRPO, etc.

COM-FSM Budget Procedures Handbook

Environmental Scan Report	A report that reflects careful monitoring of COM-FSM's internal and external environments for detecting early signs of opportunities and threats that may influence its current and future plans. This report is prepared yearly by the IRPO for use by the college in formulating strategic plans and preparing budgets.
Federal Pell Grant	U.S. grant providing financial assistance to help COM-FSM students pay the cost of postsecondary education.
Fees	Amounts, other than tuition, collected by the college from the students for their use of various services and facilities. These include Registration, Health, Student Activity, Dormitory, Facilities, and other fees.
Fixed Costs	See Base Costs .
Indirect Cost Revenue	Revenue generated by divisions/departments overseeing/managing special projects with outside funding.
Integrated Educational Master Plan (IEMP)	Document developed by the College of Micronesia-FSM in order to adequately address external impacts that the college has identified and to provide an operational plan to move the college forward toward mission fulfillment and vision. It integrates all aspects of the college's operations into specific, measurable actions that each area is set to accomplish over the next 5 years.
Line-Item Budget	A type of budget which holds agencies accountable only for what they spend on <i>inputs</i> . The traditional line-item budget, which specified allowable spending on inputs (salaries, supplies, travel), was first developed to guard against misuse of public funds.
Non-Direct Operations	Revenue category that includes FMI General Fund, Technology, and Supplementary Education Grant (SEG).
Performance-Based Budget	A type of budget which is intended to hold agencies accountable for what they achieve.
Sponsored Programs	Education-related programs, such as UB, GEAR UP, and CRE, which are also sources of additional revenues for the college.
Statement of Assumptions	A listing or narrative of circumstances taken for granted, or things that are accepted as true or certain to happen, without proof. They serve as basis for making estimates of uncertain variables that are used as inputs into a financial model, normally for the purpose of making projections and developing budgets.

Total Cost of Ownership

A calculation designed to help people make more informed financial decisions by looking at the complete cost of an asset from purchase to disposal. It adds to the initial purchase price other costs expected to be incurred during the life of the product, such as service, repair, insurance, training of personnel, and upgrades.

Introduction

Primary goal

The primary goal of this manual is to provide clear step-by-step procedures in the preparation of COM-FSM's budget that has “a high degree of credibility and accuracy, and reflects appropriate allocation and use of financial resources to support student learning programs and services.” (*WASC Standard IV*)

To achieve this goal, the college is committed to the following principles in planning and preparing its budget: Open communication and transparency, dialogue and discussion, participatory governance, data-driven decisions, and clearly stated outcomes.

Budget components

The college's budget has five components:

1. A balanced budget for the whole college
2. Budget for Infrastructure Development Project (IDP)
3. Budget for the operations of Fisheries and Maritime Institute (FMI)
4. Budgets for auxiliary enterprises of the college
5. Budget for the board of regents

Lead role of VPAS

The vice president for administrative services (VPAS) leads the development of the annual budget. The budget process starts in April with the VPAS preparing the budget guidelines and ends in December with the balanced budget approved by the Board of Regents (BOR) and transmitted to the FSM government.

College of Micronesia – FSM Budget 2014 Timeline

The following timeline for developing the FY 2014 budget is based on the 2014 budget guidelines prepared earlier for the college to follow. development is also greatly affected by the decision of JEMCO to reduce Compact Education Sector Grant (ESG) funding by \$2.8 million over years (resolution attached). The (ESG) funding for 2014 will be at the level of \$2.4 million. The BOR approved the increase of tuition to \$ per credit effective Spring of 2013.

SUGGESTIONS IN DEVELOPING AND PRESENTING TIMELINES

- List activities to be covered in the timelines.
- Ascertain which activities need to be done first.
- Determine how long each activity will take.
- Determine when each activity is to begin.
- Determine when the activity should be finished, repeated, or in place.
- Establish what kind of time frame (i.e., days, weeks, months, or inclusive dates) is to be used.
- Determine how to put items 1 through 6 above into picture form so they can be studied, reviewed, and tracked to see whether activities are ahead of schedule, on schedule, or behind schedule.

Stage 4 ► VPs determine resource allocations for their respective departments.

4.1 Review the following:

- Existing budget structure.
- Most recent reports on assessment and review of programs and services relevant to the department.
- Positions that have not been filled – for up to 2 years and more – and decide if such positions are still needed.
- Total cost of ownership (TCO) based on the facility plan, if applicable to the department.

4.2 Submit any new positions for approval in accordance with college procedures for creating new positions.

4.3 Determine resource allocations for the different offices and/or campuses under the department.

4.4 Provide details to justify any request for increase in resource allocation from immediately preceding FY budget.

4.5 Using college-prescribed template, create a worksheet for each office and/or campus under the department. Enter allocated figures in the appropriate sections of the worksheet.

OUTPUT

4.6 Give a copy of the **partially filled-in budget worksheets** to VPAS. (*See Figure 5 below for sample worksheet.*)

Stage 5 ► IRPO (or other designated unit supervisor) conducts budget preparation training workshops, during which Campus Deans and Office Directors prepare their respective unit budgets.

5.1 IRPO (or other designated unit supervisor) –

5.1.1 Obtain copies of partially filled-in campus and office budget worksheets from VPAS.

5.1.2 Prepare slide presentations, which should:

- Address the overall budgeting process.
- Emphasize specific issues of interest or new items for the specific year

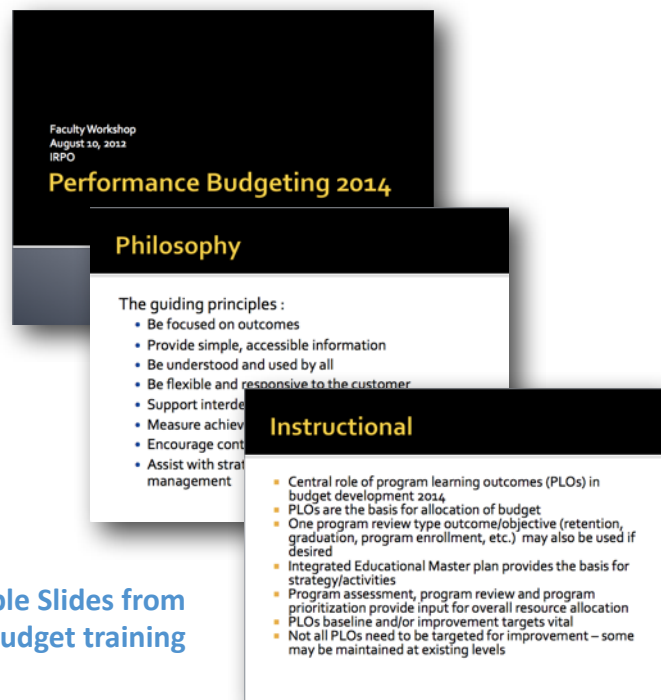

Figure 6. Sample Slides from FY2014 Budget training

5.1.3 Schedule training workshops.

- Set aside sufficient time for training combined with working sessions to reduce budget development time.
- Consider a training of trainers for vice presidents and deans as a separate training activity.

(NOTE: VPs and Deans would likely need to place a greater organizing and review role for development of program and office budgets under their department or campus.)

5.1.4 Conduct training workshops.

- Review/Consider previous year's budget development and include in the training:
 - What are the basic steps in the process?
 - What's new in this budget development process? (such as including Total Cost of Ownership in 2014)
 - What went well in the budget development process the previous year?
 - What could be improved?
- Review demographics, college data and potential revenues (tuition, fees etc. increasing, decreasing)
- Review budget guidelines for the year for potential changes in process or issues to emphasize.
- Review budget assumptions and revenue projections background data.
- Discuss terminology that may need to be clarified.
- Explain the decision making process.
- Discuss the timeline.

*For FY 2015 the use of **TracDat** will likely place a greater emphasis on use of assessment and improvement plans into the budget training. Including practical examples using TracDat assessment plans and reports to support the budget development will likely be needed.*

5.2 Campus Deans and Office Directors –

5.2.1 Participate in budget training workshops.

5.2.2 During workshops, prepare unit budgets by completing the partially filled-in budget worksheets provided by IRPO. In the budget worksheet –

- ▶ PAGE 2: Fill in office or division performance items.

- ▶ PAGE 4: Fill in the benefit line items.
- ▶ PAGE 5: Fill in Budget Items.
- ▶ PAGE 6: Check summary for Performance activity allocation.

5.2.3 In completing the worksheets,

- Consult own superior (VP) and subordinates (faculty or staff).
- Make sure that the budget –
 - Reflects the college's strategic plan.
 - Is based on assessment information.
 - Is aligned with the college's strategic goals and objectives to allow performance reporting for BOR and FSM and US governments.

OUTPUT

5.2.4 Submit **completed budget worksheets** to respective VPs.
