41	I am very dissatisfied with how the time of the classes are set. most of the required classes are already full and for those that are not full and are supposedly the next classes i should be taking,their time is conflicting. so now out of three classes i should be taking, I can take only one of them. In addition, the registration process is very slow and i had to wait for several hours. My suggestion is that next registration time, somebody should help out Cecilia Dibay to help speed up the process. One should be dealing with the continuing students and the other with new students. Obviously, some people do not come on the day they are supposed to. Thank you very much for your understanding.	1/5/2016 4:22 PM

2	During registration day, have more than one Student Services staff work to expedite the process. The line would be backed up on the student services side because only one staff would be there to process the students and would get frustrated and loose professionalism when students complete the signing portion to come back and have their print outs.	1/13/2016 11:05 AM
