7	People helping with the registration process should be glad to help student... and not get mad because a student is going late with papers or classes... some students need help that much... without them, students would not be able to complete registration papers...	2/28/2015 1:53 PM

13	Set a specific date for students who are freshmen sophomore and so on for them to register. Thank you	2/27/2015 12:56 PM
14	I observed how the process wasn't as organized. At the screening section as we entered we were not directed as to where to go from there and we were also not given all the documents we needed. And so, we would go halfway through then go back to screening to get missing papers. Some students weren't even following the line at the screening. Students were tired of standing for a long time in the line. Screening was slow and Very Very DISSATISFYING.	2/27/2015 11:41 AM

18	I noticed that there were directions (step-by-step) and it is a good thing. It actually helped me through the process without asking my peers for directions and what should I do first and so on. I only saw positive side that the registration this semester has changed for the better. And I'm glad I did it all on my own. I thank whoever came up with this idea. And even the postures on the wall directing which way I should go.	2/26/2015 9:52 PM

23	I guess that because of slow wifi connections, some of the processes were slow such as the getting registered by one of the staffs... It was much faster when we did our own Online Registration.	2/25/2015 4:33 PM
24	In Yap, registration is fair to other but other student do not really get the satisfied help. However, the arrangement made is fine but when going in the process it seems confusing that some student have hard time in finishing registration for only one to three classes.,	2/25/2015 4:02 PM

37	The only thing I didn't like is about my classes...	2/24/2015 3:26 PM
38	I recommend giving students at least a week of registering or adding and dropping classes, as it will give us more time in balancing out our classes with our own personal schedule and make us to be more sure of our decision. Thank you	2/24/2015 3:09 PM
39	1. Computers should be available at the registration site for continuing students to do online registration. 2. Online registration for NC classes should be available online for PC students or vice versa. It's so inconvenient to be able to do online registration for some courses but not on some if your not registered at that campus.	2/24/2015 1:51 PM
40	i have no comment	2/24/2015 12:34 PM
41	Registration process here needs more helping hands so that we don't cluster in one place for hours. Positive-although there's only one (most of the time)I'm pretty much satisfied with that. Need the PEER COUNSELORS to help out like previous years.	2/24/2015 12:30 PM
42	Positive: some students beside the peer counselors are helpful during the registration, they should have been the school's peer guides. Negative: the people in OAR have to do their job really well and organized, must be able to address students problem during the registration such as when we don't understand some parts of the form or the things to be done, and where to go do it, with who and by who we need to go to for the registration process to be clearly done. Also, advisers have to be always presented the whole days of registration in their offices because I have experienced getting my registration form late to process for their absences so it ended up the courses I needed to take got full and that makes me stay up for more semesters to finish my education and continue to reach every levels in my education which is what I want and I'm hoping and trying and most especially doing my best for to accomplish. Also, everything that our registration needed should all be available like the labs to get our ID's and e-mail fixed, and also the OAR officials or IC has to post or handout lots of copies for the available sections or classes every semester so that students won't have hard time asking or lining up where there is only one poster of it to see and copy schedules for their classes and that's one thing that makes our registration process lots of time to be done. Everything must be well prepare and organized. Lastly, our workers in our campuses especially ours in Chuuk have to treat everyone and address everyone the same. Everything should all be same and fair, but there shouldn't be any picking of who to help whether because of any relations because I really hate that habit and I don't like the fact that it also happened in our Chuuk Campus. There has to be the team work between all of us the students along with the staff and faculties. We all must work together and help each other out as a family which I always heard from our meetings we had that it has to be like that but I've never seen it done. I hope we can make it up one way or another.	2/24/2015 12:08 PM

54	I think most of us students that are staying in the dorm always have a hard time when it comes to registration because of our balances that we owe the school. However, for us Kosraeans, our congressmen had a meeting with us two weeks ago. They told us that we don't need to worry about registration, because when ask them to help us pay off the a percentage of our debts, they always have the money ready to support us. So I think, the business office should help us by not making reregistration to be very hard for us to think about! thank you!	2/23/2015 11:35 AM

61	With a positive note, I was fortunate to be on time for registration--early register. Negatively, students were all piled up with a single strand line within a suffocating alley. The staffs lending service for students at the registration table were insufficient. And one with courage or vice versa, a thick face, can easily cross lines or taking advantage of others. All in all, for this kind of registration process, students must greatly receive assistance benefits at the least cost, and within this process, only the strong survives--such that who ever, any student, is on time or desperate tops it all.	2/22/2015 6:58 PM
62	If it weren't for Mr. Joey Oducado i wouldn't be registered in C.O.M. The people that handle registrations are not helpful at all.	2/21/2015 6:20 PM

64	The registration process is very long. It only takes a couple of seconds to get from one office to another but waiting for your schedule to print out is what takes too long. I think students who can should do early registration it is much quicker and easier there is no need to wait in long lines.	2/21/2015 11:23 AM
65	there is nothing wrong with the registration process,.	2/20/2015 5:15 PM

118	Even though we accommodate the online registration very easily, the fact that sometimes our advisers are unable to meet with us because they left early or preoccupied is a slightly issue that most of us students tend to encounter when we register. 155	When it comes to registration, it is understandable that the staffs at the offices will be busy but somehow they put their frustration on the students which makes it not good impact scolding the students. Registration process is well organized but it takes too much time to go in line to wait. Is there anyway those that they have balance can be able to register online if they need a class to graduate? I suggest register online because it's faster and you don't need to walk around looking for your academic advisors or to stand in line to wait patiently for your turn.	2/17/2015 6:11 PM
156	Takes too long. Not too many staffs to help out the registration process	2/17/2015 5:20 PM
157	It's perfect.	2/17/2015 4:23 PM
158	I certainly observed the registration as good though, in fact they need to give out all the applications or documents that are needed for students to fill them out. Therefore, students would get all things done before school starts not like when students are busy with school and bother to fill out some documents. Instead of focusing on school.	2/17/2015 4:03 PM
159	admission and record staff are not really helpful!!!! unimproved services.....	2/17/2015 3:55 PM
